

The Green Mountain

Traditional
Arr. J.Bitter
www.whistle-flute.com

A - part

B - part

V = Single cut

⌒ = Short roll

⌒ = Long roll

A nice fluent melody to practice cuts and rolls.

In stead of playing a short roll (= 2/8 = da-bla) or long roll (= 3/8 = da-bla-da) you can take some air too by playing the particular note on the beat and make it 1/8 shorter: 2/8 becomes 1/8 and 3/8 will be 2/8.

You also can choose to play/memorize only the first eight measures of both parts and repeat them, but if you play every 16 measures of both parts you will create a bit of variation in this reel
